PROFILE

I am a Laravel Developer with 2.5+ years of experience in developing and maintaining web applications using Laravel, PHP, MySQL, JavaScript, Bootstrap, HTML, and CSS. Developed secure authentication systems, REST APIs, referral systems, admin panels, and responsive user interfaces. Experienced in integrating Flutter applications with Laravel backend APIs and building modern freelance marketplace features. Also skilled in AI Prompt Engineering, creating effective prompts for AI tools to improve productivity, content generation, and workflow automation.

EMPLOYMENT HISTORY

MeemSoft, Laravel Developer 04/2025 – Present | Lahore

Worked as a Laravel Developer at MeemSoft, where I developed and maintained dynamic web applications using Laravel, PHP, MySQL, JavaScript, Bootstrap, HTML, and CSS. Built secure authentication systems, admin panels, REST APIs, and responsive user interfaces while improving application performance and database management. Also worked on integrating Flutter applications with Laravel backend APIs and contributed to freelancer marketplace and referral system features.

Innovabe Solutions, Junior Laravel Developer 12/2023 – 04/2025 | Lahore

Worked as a Junior Laravel Developer at Innovabe Solutions, where I contributed to the development and maintenance of web applications using Laravel, PHP, MySQL, JavaScript, Bootstrap, HTML, and CSS. Assisted in building and improving authentication systems, admin dashboards, and RESTful APIs while ensuring clean and maintainable code. Gained hands-on experience in database design, bug fixing, and performance optimization, and collaborated with senior developers to deliver client projects on time.

Biotech Packages, Laravel Intern 08/2023 – 10/2023 | Lahore

Completed a 3-month internship at Biotech Packages as a Laravel Intern, where I gained practical experience in web application development using Laravel, PHP, MySQL, HTML, CSS, JavaScript, and Bootstrap. Assisted in developing basic modules, fixing bugs, and improving existing features under the guidance of senior developers. Learned core MVC architecture, database handling, and REST API fundamentals while working on real-time project tasks in a professional development environment.

EDUCATION

Bahauddin Zakariya University, BA (Computer Science)

04/2019 – 04/2022

Multan, Punjab, Pakistan

Completed BA (Computer Science) from Bahauddin Zakariya University, Multan with 64% marks. Studied computer science fundamentals, programming concepts, databases, and software development while developing analytical thinking and problem-solving skills.
